

2021 Holiday Store Program

Operation Breakthrough is an early childhood education center and also provides before and after school and summer programs for over 700 children daily now. Our average family is living on less than \$1,000 per month leaving little left for Christmas gifts. Our early education program is for children from 6 wks. to 5 and when they are ready for Kindergarten, they come to our before and after school and summer programs.

The center provides emergency services, food, clothing, diapers, on-site medical and dental care as well as occupational, speech and play therapy. The center also provides programs and case management for parents and caregivers.

Since the early '90's, the staff at Operation Breakthrough, with much support from the community, has provided Christmas gifts and holiday meals to those in need. In 2020, the center helped more than 1,000 families total bringing Christmas to over 3,400 children.

You can help this Christmas by donating new toys. In addition to the adoption program we also need toys for children who don't attend OB but still live in the same urban community. Pre-registered parents come and pick out gifts for each of their children with a volunteer. This year we will be helping over 800 kids with this program. Here are examples of some of types of items that we could use for these additional children.

ITEMS FOR ALL AGES
